**CITY OF LAREDO
RETURN TO WORK POLICY**

A. Return to Work Policy Statement

It is the policy of the City of Laredo to provide a return to work program as the means of returning employees to meaningful productive employment following an Injury or Illness. In order to provide the highest level of quality service to the citizens of Laredo, it is necessary for every employee of the city to be available for work, ready and capable of performing the duties and responsibilities for which the employee was hired. If the injured or ill employee is not able to be returned to regular work within six months, he/she will be evaluated for ADA consideration. If he/she does not qualify for ADA consideration, they will be placed on inactive status, and terminated at the end of 260 work days of lost time due to business necessity, unless otherwise specified by the Collective Bargaining Agreements of Police and Fire and Chapter 143, Municipal Civil Service of the Texas Local Government Code.

The return to work program enables a regular full-time employee to return to work at full duty if the employee has a disability as defined by the Americans with Disabilities Act (ADA); has limitations as a result of a work-related Injury sustained during the course and scope of employment; or has a serious health condition as defined by the Family Medical Leave Act (FMLA), and will run concurrently starting on day one of lost work time. If the employee is not physically capable of returning to full duty, the return to work program will temporarily assign the employee to either Modified Duty or Alternate Duty. Modified Duty will allow the employee to perform the essential functions of his regular position to the employee's physical capacities for a period not to exceed 60 work days. Alternate Duty will assign the employee to a position in the same department or another department for a period not to exceed 90 workdays. An extension for Alternate Duty positions may be granted at the City Manager's discretion. Modified Duty positions and Alternate Duty positions will be assigned only if available and must have the Department Director's approval.

Participation, in the return to work program shall not be construed as recognition by the City, its management, or its employees as having a disability as defined by the Americans with Disabilities Act (ADA) of 1990. To the extent reasonably feasible, it is the employee's responsibility to inform the supervisor or management that a disability under the ADA exists and reasonable accommodation is necessary to perform the essential job functions of their job.

Specific procedures and guidelines will be provided regarding the return to work program.

All employees of the City of Laredo are required to comply with procedures and guidelines as specified in the Return to Work Policy.

B. Return to Work Procedure

1. Definitions - The following definitions apply to this procedure:

1.1 Serious Health Condition: An illness, injury, impairment, physical, or mental condition that involves inpatient care in a hospital, or residential medical care facility, including any period of incapacity; or continuing treatment by a health care provider, including a period of incapacity.

1.2 FMLA Leave: Federal leave entitlements of up to 12 weeks of unpaid leave when an eligible employee is unable to work because of a serious health condition. The absence from work must be a period of incapacity of more than three consecutive calendar days. The leave is normally continuous, but may be taken intermittently or on a reduced leave schedule. Employees will be notified that FMLA will run concurrently with sick leave, workers compensation, and serious illness pool. Documentation from treating physician is required.

1.3 Lost Work Days: Time spent away from work at the direction of the treating doctor as a result of a serious medical illness or a compensable injury sustained in the course and scope of employment. Working in a temporary assignment, modified or alternate duty is not counted as lost time.

1.4 Full Duty: Performance of all duties and tasks of the positions for which the employee was employed. Full duty entails performing all essential and non-essential functions of the employee's regular job.

a. **essential function** The fundamental duties of the position. A task may be essential because the position exists to perform the function; or a function may be essential based on the number of other employees available to perform the task or among whom the responsibility of doing so can be distributed; or a function may be essential if it requires a certain degree of skill or specialization.

b. **non essential** The duties of a position that anyone else can perform.

1.5 Temporary Assignment: Performance of a temporary job assignment that is intended to return an injured employee to work at less than his or her full duties when a compensable injury or serious medical condition prevents the employee from working full duty. Two types of temporary assignments are modified duty and alternate duty. They are not counted as part of 260 lost work days.

a. **modified duty:** Performance of all the essential functions, but only a portion of the nonessential functions and tasks of the regular job, and performing those duties and tasks that are within the capabilities of the employee given the restrictions to duty imposed by the treating physician.

Modified duty is a temporary arrangement until the injured employee can resume full duty and limited to 60 days. If the employee is qualified as defined under the ADA (Americans with Disabilities Act), then modified duty may become a permanent arrangement as a reasonable accommodation, if it does not create an undue hardship on the city.

- b. **alternate duty:** Performance of the essential functions of a job or position other than the position for which the employee is employed. Alternate duty allows the employee to temporarily perform other duties and tasks that are within the restrictions to duty imposed by the treating physician. Such alternate duty may be physically located in the same facility or in some other facility.

Alternate duty is a temporary arrangement until the injured employee can resume full activities of his/her regular job. If the employee is a qualified individual with a disability as defined under the Americans with Disabilities Act (ADA), then alternate duty may become a permanent arrangement as reasonable accommodation, if the accommodation does not create an undue hardship on the city. Alternate duty is limited to 90 work days. One additional extension, not to exceed 90 days, may be granted and must be approved by the City Manager and the Department Director.

1.6 Undue Hardship: An action requiring significant difficulty or expense, an example may be an action that is unduly costly, extensive, substantial or disruptive, or that will fundamentally alter the nature of the employer's business.

1.7 Reasonable Accommodation: Any change in the work environment or in the way things are customarily done that enables an individual with a disability to enjoy equal opportunities.

2. Prohibited Actions - This return to work policy and procedure shall not be applied to any situation or circumstance in a manner that discriminates on the basis of race, color, sex, national origin, religion, or disability. It is a violation of the return to work policy, procedure and state or federal law for any employee, supervisor or manager of the city to:

2.4 Limit, segregate, or classify a job applicant or employee in a way that adversely affects his or her employment opportunities or status on the basis of disability.

2.5 Require a medical examination of an employee who is disabled as defined under the ADA, unless the medical examination is job related and consistent with business necessity.

2.6 Make inquiries as to whether an employee is an individual with a disability or as to the nature or severity of such disability.

3. Position Descriptions

3.2 The physical requirements of the position should be included in all position descriptions as either an essential or non-essential function.

3.3 All position descriptions shall be reviewed on an as needed basis, and must be submitted for approval to the personnel officer.

- b. A serious health condition as defined by the Family and Medical Leave Act.

5.2 An employee who meets the above criteria shall participate in the program. If the employee refuses to participate, disciplinary action will be taken and the employee will be terminated based on business necessity pursuant to personnel policies or as per Collective Bargaining Agreement of Police and Fire and Chapter 143 Municipal Civil Service of the Texas Local Government Code.

6. Notification of Injury or Illness

6.1 An employee who sustains an injury or illness either on or off the job will give written notification to the supervisor, or a person in a management position, that an injury or serious health condition exists.

6.2 The notification should occur at the earliest possible time after occurrence of injury or knowledge that a serious health condition exists.

6.3 Notification should occur within 24 hours of the injury or when the serious health condition first manifests itself. In order to receive workers' compensation benefits, an employee must give notice of injury within 30 days or the claim may be denied.

7. Authorization for Leave and Lost Time

7.1 An employee who must miss work due to a compensable injury and/or a serious health condition must be authorized by a health care provider to be off work. It is the employee's responsibility to provide such documentation to his/her supervisor after three lost working days. The employee can be disciplined for unauthorized lost work time.

7.2 A "Certification of Physician or Practitioner" form is attached to this procedure for this purpose. If an employee is disabled as defined under the ADA, the request for information must be job-related, consistent with business necessity and cannot inquire as to the nature or severity of the injury.

7.3 In general, the treating health care provider's certifications shall be provided by the employee to the supervisor according to the following timelines:

- a. When the employee knows in advance that FMLA is necessary, the certification form shall be provided to the supervisor a minimum of three working days prior to the time when the leave will commence.
- b. When the employee cannot know in advance that leave is necessary, the certification form should be provided to the supervisor within a maximum of three calendar days after the initial visit to the health provider.

7.4 The employee's Director or Designee shall coordinate with the Employee Health Nurse and provide a copy of the employee's job description and physical job requirements to the employee to take to the health care provider to assist the health care provider to determine whether the employee can perform the essential functions of the job.

8. Substitution of Paid Leave for Unpaid Leave

- 8.1** If an employee is injured off the job or has a serious illness, accrued annual leave, sick leave, or serious illness pool if eligible, must be used before unpaid leave is taken.
- 8.2** If a compensable work-related injury or illness is involved, the employee is not required to use all accrued annual or sick leave. Workers' Compensation will start paying benefits on the eighth day of the disability. Police and firefighters are an exception to this due to their collective bargaining status.

9. Periodic Status Reports

- 9.1** If an employee is certified by a health care provider to be off work, the employee is required to submit periodic status reports to his/her supervisor to report the employee's status and intention to return to work. Such status reports are required at the time of each scheduled visit with the treating health care provider and are due immediately following the visit.

They should be submitted within 24 hours and notification made to The Risk Management Department.

11.2 Timely submission of reports and forms is necessary to promptly initiate Workers' Compensation benefits, or cease payment of benefits when the employee returns to work. All reports and forms shall be submitted in a timely manner in accordance with requirements of the Texas Workers' Compensation Act.

12. Temporary Assignment Positions

12.1 If an employee is certified by the health care provider to return to work to less than full duty, the city may provide a temporary assignment position to the employee. Directors and managers will identify temporary modified or alternate duty positions to facilitate return to work based on the business necessity of filling the employee's position, the employee's entitlements to Family Medical Leave, the availability of temporary assignments and other appropriate factors.

12.2 These temporary assignments shall be coordinated with the Return to Work coordinator/designee and/or administrative services director/designee. 13.2 If the employee has questions regarding the temporary assignments, job modifications or questions regarding the FMLA or ADA, the employee can contact the Personnel Officer.

13.3 The employee may accept or reject a bona fide offer of employment. The employee should be informed that rejection of a bona fide offer of employment may result in workers' compensation temporary income benefits cessation (if applicable) by the Workers' Compensation Commission and termination of employment.

13.4 If the employee accepts a bona fide offer of employment, the employee shall perform the duties of the temporary assignment position for the term of the assignment or until the employee is able to return to full duty, whichever is sooner.

13.5 If the employee rejects the bona fide offer of employment, then the employee remains off work until the end of the FMLA entitlement period or is terminated.

13.6 If the employee is unable to return to full duty by the end of the temporary assignment and/or by the end of the employee's FMLA leave entitlement period, the employee's continued employment with the city shall be considered based upon business necessity of having the employee's position filled and whether any reasonable accommodation is required under the ADA.

**City of Laredo
Alternate Duty Policy**

1. Policy

It is the policy of the City of Laredo that regular full time employees who become temporarily disabled due to an on the job or off the job illness I injury and who have the medical expectation of returning to full duty, may be assigned to duties consistent with their limited status for a specified period of time. The individual will be assigned to their department or one needing a service that the employee can provide within the constraints of their skill, experience and knowledge and within the limits of their physical capability as determined by their treating physician. The alternate duty positions will be limited to 5 percent of the work force for each department.

2. Purpose

Establish a policy for assigning regular full time employees to alternate duty assignments in their own department or in other city departments. There, the employee will continue to assist in providing the highest level of quality service to the citizens of Laredo.

3.3 A treating physician's alternate duty release will be definitively outlined stating specific limitations of the injured employee. The treating physician will receive a copy of essential job functions, physical job requirements of the position, and a copy of the Alternate Job Policy for use in making this determination.

3.4 Work assignments and work schedules for those on alternate duty will be determined by the Department Director/Designee in accordance with the need for service. Whenever possible an alternate duty assignment will be made in the employee's department. If an alternate duty assignment is not available in the employee's regular department, the Employee Health Nurse/designee will arrange placement in another city department, if a suitable assignment is available.

3.5 Any employee assigned to alternate duty will be compensated at their regular rate of pay. If the alternate duty assignment rate of pay is higher, the employee will be compensated at the higher rate after thirty days as per city ordinance.

- 3.6** Alternate Duty assignments will not exceed 90 workdays. An extension may be granted at the discretion of the City Manager. An employee is limited to a total of 180 work days per year of alternate duty regardless of the number of injuries incurred. At the end of alternate duty assignment, the employee will be placed on inactive status. The employee may then be placed on workers compensation leave, if eligible, take accrued sick leave, or leave without pay.
- 3.7** Alternate duty provisions for temporarily disabled employees will be re-evaluated at the time it is determined by medical authority that a permanent disability exists.
- 3.8** This policy will not be construed or interpreted to mean an employee has a right to an alternate duty assignment and that the department director is compelled to assign an employee to alternate duty status.
- 3.9** If an employee refuses to accept a job assignment within the capabilities as approved by the employees' physician, the employee will be disqualified from participating in the alternate duty program.
